

## **Speaker Biographies**

### **Jonathan S. Appelbaum, MD**

Dr. Appelbaum is an internist, geriatrician, a hospice/palliative care physician and an HIV expert. A graduate of the University of Miami School of Medicine and the University of Massachusetts internal medicine residency program, he spent 12 years in practice in northeastern Connecticut before relocating to Fenway Community Health Center in Boston, MA where he served as medical director for 8 years. He moved to Brigham and Women's Physician Group where he was medical director for a 15 physician academic practice for four years before relocating to Florida to become the Director of Internal Medicine Education at Florida State University College of Medicine.

He continues to be a member of the American Academy of HIV Medicine Credentialing Committee and has been a credentialed HIV-specialist since 2003. He has published articles on the care of the LGBT adult and on HIV and aging. He has authored several articles and is the author of the chapter on "HIV and Aging" in the **AAHIVM Fundamentals of HIV medicine: 2010-2011 Supplement**. He is the co-principal investigator for "The HIV and Aging Consensus Project: Recommended Treatment Strategies for Clinicians Managing Older patients with HIV," sponsored jointly by AAHIVM, the American Geriatrics Society and AIDS Community Research Initiative of America.

He is the Florida State University College of Medicine institutional representative to the AAMC Group on Diversity and Inclusion, and is the chair of the FSU-COM Diversity and Inclusion Council. In addition to overseeing the internal medicine clerkship education, he directs the clinical skills and simulation portion of the second year Doctoring course. He is a member of the Curriculum Committee and Curriculum Redesign Committee. Nationally he is a member of the Subinternship Committee of the Clerkship Directors in Internal Medicine and on the board of directors of the American Academy of HIV Medicine and HealthHIV. Locally he is on the board of Big Bend Cares, the AIDS service organization in the Tallahassee area. He maintains a clinical practice caring for patients with HIV/AIDS at a Ryan White health center in Tallahassee.

### **DeWitt C. Baldwin, Jr., MD**

A pediatrician, family physician, and psychiatrist, Dr. Baldwin was educated at Yale Medical School, completing residencies at the University of Minnesota, Yale and Boston University. He is a Diplomate of the National Board of Medical Examiners, the American Board of Pediatrics and the American Board of Family Practice. He was a member of the planning committees and founding faculties of the University of Connecticut and Nevada Medical Schools.

Dr. Baldwin served as President of Earlham College in Richmond, Indiana before going to the American Medical Association in 1985 as Director of the Division of Medical Education and Research Information. He currently holds the titles of Senior Scholar-in-Residence at the Accreditation Council for Graduate Medical Education (ACGME), Professor Emeritus of Psychiatry and the Behavioral Sciences, University of Nevada School of Medicine, and Adjunct Professor of Clinical Psychiatry, Northwestern University School of Medicine. In 2003, he received the degree of Doctor of Science (honoris causa) from the Northeastern Ohio Universities College of Medicine and in 2011, he received the degree of Doctor of Humane Letters

(honoris causa) from Rosalind Franklin University. He has published over 200 scholarly articles and three books.

### **Monica Basu**

Monica has been in her current role for five years. In this capacity, she serves as the main program manager for the foundation's grant to establish the University of Oklahoma School of Community Medicine, programs to support the Oklahoma State University Medical Center, the local community health centers, and other community health initiatives.

Monica joined the foundation after several years in the private sector where she held various management positions at companies in the financial services and telecommunications industries. She serves on the board of directors of Morton Comprehensive Health and the John Hope Franklin Center of Reconciliation.

Monica is a native of India but grew up in four countries. She holds an MBA from Duke University and is currently in the 2013 inaugural class of the Masters in Healthcare Delivery Science program at Dartmouth College. Monica speaks seven languages.

### **Daniel S. Blumenthal MD, MPH**

Dr. Blumenthal is a graduate of Oberlin College and the University of Chicago School of Medicine. He completed his residency in pediatrics at Charity Hospital of New Orleans (Tulane Division) and received his master of public health degree from Emory University. He is board-certified in both pediatrics and preventive medicine.

He has served as a VISTA Volunteer physician in Lee County, Arkansas; as an Epidemic Intelligence Service Officer with the Centers for Disease Control in Atlanta; and as a medical epidemiologist with the World Health Organization Smallpox Eradication Program in India and Somalia. He was on the faculty of the Emory University School of Medicine and has been at Morehouse School of Medicine since 1980, where he served as Chair of the Department of Community Health and Preventive Medicine from 1984--2009. He is currently Associate Dean for Community Health.

He has served as President of the Association of Teachers of Preventive Medicine, as a Regent of the American College of Preventive Medicine, as a member of the Governing Council of the American Public Health Association, as Fulton County (Atlanta) Health Officer, and as a Robert Petersdorf Scholar-in-Residence at the Association of American Medical Colleges.

He is a recipient of the Georgia Public Health Association's Sellers-McCroan Award "for outstanding achievement and service to Georgia in public health." He was named the Outstanding VISTA Volunteer of the 1960s. He received a "Shining Light" Award from the Georgia Association for Primary Health Care and the Leonard Tow Humanism in Medicine Award from Morehouse School of Medicine. He was the 2010 recipient of the Duncan Clark Award from the Association for Prevention Teaching and Research, the association's highest award.

### **Candice Chen MD, MPH**

Dr. Candice Chen has been the Co-Principal Investigator of the Medical Education Futures Study (MEFS) and an Investigator on the Sub-Saharan African Medical Schools Study (SAMSS) and the Medical Education Partnership Initiative (MEPI). Her domestic work has focused on the educational factors that influence primary care and underserved career choices. In June, 2010 she co-authored a study examining the social mission outcomes of U.S. medical schools. Her international work focuses on personnel and resource needs of medical education institutions in Sub-Saharan Africa in order to strengthen human resources for health in the region.

Dr. Chen is currently a National Institute of Minority Health and Health Disparities DREAM Fellow and an Assistant Research Professor in Health Policy at George Washington University. She received her medical degree from Baylor College of Medicine and her Masters of Public Health from George Washington University with a concentration in Community Oriented Primary Care. She continues to practice primary care pediatrics in an underserved community in Washington, DC.

### **Frederick Chen, MD, MPH**

Frederick Chen is Associate Professor in the Department of Family Medicine at the University of Washington and Chief of Family Medicine at Harborview Medical Center. Dr. Chen received his medical degree from the University of California, San Francisco, and completed his M.P.H in epidemiology at UC Berkeley. After training in family medicine at the University of Washington he completed a fellowship as a Robert Wood Johnson Clinical Scholar. Dr. Chen was the Kerr White Visiting Scholar in the Center for Primary Care Research at AHRQ and an Atlantic Fellow at the Public Health Policy Unit of the University College London. At the University of Washington, he has been the lead faculty for the WWAMI Underserved Pathway, medical director for the Washington State Patient-Centered Medical Home Collaborative, and a researcher in the Rural Health Research Center. He serves as senior advisor to HRSA's Bureau of Health Professions for the Teaching Health Center program.

### **Gerard P. Clancy, M.D.**

Dr. Gerry Clancy earned a Bachelor of Science degree in Biochemistry in 1983; completed an American Heart Association Research Fellowship in 1985; and received his medical degree in 1988, graduating with Alpha Omega Alpha honors from the University of Iowa. Dr. Clancy continued his residency training in Psychiatry at the University of Iowa and served as that department's first Chief Resident in 1992.

Dr. Clancy began active duty in the United States Air Force in 1992. He was promoted to Major, graduated from pilot survival school, served as a flight surgeon and piloted B1, B-52, T38, and K135 aircraft and H1 helicopters.

In 1995, Dr. Clancy returned to the University of Iowa as a faculty member in the Department of Psychiatry. During that time, he helped lead several major initiatives, including the establishment of mobile clinics for the homeless mentally ill, mobile teams to provide medical, psychiatric and rehabilitative care for those with severe mental illnesses on a state-wide level, and the redesign of chemical dependency services.

Dr. Clancy graduated from the Harvard University Program in Health Care Policy and Management in 1997 and the Harvard University Program in Non-Profit Financial Stewardship in 2011. In 1998, he was named University of Iowa College of Medicine Assistant Dean of Students. He became Vice Chairman of the Department of Psychiatry in 1999.

In 2001, Dr. Clancy was named Dean of the University of Oklahoma College of Medicine, Tulsa. Five years later, he also assumed the duties of President of the University of Oklahoma, Tulsa campus. Under his leadership, OU programs in Tulsa have grown significantly, and the campus has added \$124 million in new facilities. Dr. Clancy also assisted in the development of a community health network that includes mobile psychiatric teams, after-hours free clinics for the poor, and pediatric school-based clinics in disadvantaged areas of Tulsa.

In 2008, with a \$50 million donation from the George Kaiser Family Foundation, Dr. Clancy assisted in the successful effort to transform medical education at the University of Oklahoma – Tulsa. The OU College of Medicine in Tulsa was renamed the University of Oklahoma School of Community Medicine. In 2009, the University of Tulsa joined this medical education expansion effort.

Dr. Clancy is the recipient of numerous awards for his work on behalf of the mentally ill and underserved, including the “Service to the Homeless” Award and the “Exemplary Psychiatrist” Award from the National Alliance for the Mentally Ill. The University of Iowa awarded him its Distinguished Alumni Award for Early Achievement in 2005. *Tulsa People* Magazine named Dr. Clancy the 2009 “Tulsan of the Year” in recognition of his efforts to provide health care to the underserved. In 2011, Dr. Clancy received the Distinguished Alumni Award for Achievement from the University of Iowa. Dr. Clancy currently serves as the Immediate Past Chairman of the Board of the Tulsa Metro Chamber of Commerce.

### **Sheila M. Crow, PhD**

Dr. Crow is an Associate Professor, Pediatrics, Assistant Dean for Curriculum & Evaluation, and The George Kaiser Family Foundation Chair in Medical Education at the OU Tulsa School of Community Medicine. She has worked at the University of Oklahoma for more than 20 years, providing educational programs for medical students, residents, and practicing physicians. Dr. Crow received her master’s degree in psychology from the University of Central Oklahoma and her PhD from Union Institute & University. Dr. Crow is actively involved in helping OU Tulsa SCM develop new curricula and improve assessment and evaluation of medical students.

Dr. Crow is very passionate about communication with patients and team members, effective patient centered care, and life-long learning. She is co-author of an educational DVD-Rom, “Medicine and Humanistic Understanding: The Significance of Narrative in the Practices of Medicine” (Vannatta, Schleifer, & Crow, 2005). Dr. Crow has extensive experience in developing Problem-Based Learning (PBL) sessions and Team-Based Learning (TBL) sessions for the College. She is also Course Director for Academic Afternoons, a required interdisciplinary course for junior medical students. She is leading the charge in a professionalism assessment project, utilizing 360-degree feedback, and has developed several elective humanities programs such as the Humanities at Dinner for freshman students, the Reader’s Theater for sophomore students, and the Humanities at Lunch for junior students.

## **Phillip V. Davis, PhD**

Phillip V. Davis, Ph.D., is Research Associate Professor and Deputy Chair of the Department of Medical Humanities at Southern Illinois University School of Medicine. From 1999 to the present, Dr. Davis has served as the Associate Provost for External and Health Affairs at SIU School of Medicine and is a founding member of the School's Community Service Committee where he chairs the Advocacy sub-committee. Dr. Davis holds a baccalaureate degree from the University of Illinois at Urbana, a master's degree from Duke University, and completed his doctoral studies in health education at Southern Illinois University in Carbondale.

During his tenure with the School of Medicine, Dr. Davis has been responsible for developing a number of the School's outreach programs, including the Regional Alzheimer Disease Assistance Program, the Rural Health Initiative, the SIU Cancer Institute, and the Telehealth Network and Programs Office. He also has served as a member of the faculty of the Department of Family and Community Medicine where he was instrumental in designing a rural training program that is now required of all SIU students. During his time with that Department, Dr. Davis held positions as acting deputy chair for academic affairs and as the Director of a federally funded Faculty Development in Family Practice Program.

Dr. Davis holds membership in the American Public Health Association, the National Rural Health Association and the Illinois Rural Health Association. He has been a member of the Board of Directors of the American Cancer Society Illinois Division for the past several years and currently serves as Board Secretary. He is a frequent commentator on health policy and health workforce issues, has provided testimony about physician workforce needs in the state legislature and for the Illinois Board of Higher Education, and serves as the School of Medicine's liaison for legislative matters.

## **Karen DeSalvo, MD, MPH, MSc**

Karen B. DeSalvo is the City of New Orleans Health Commissioner and serves as Senior Health Policy Advisor to the Mayor. Her responsibilities include direction of the Health Department, whose mission is to protect and promote the health of New Orleanians. Dr. DeSalvo is also advises the Mayor on local, state and federal health policy matters. She has 20 years of practice, research and policy experience aimed at improving access to quality, affordable community health care for all. She has been a leader in health sector recovery and health care reform efforts since Hurricane Katrina. In addition to broad health reform, the focus of her work included the creation of national award winning models of neighborhood-based medical homes for low income, uninsured and other vulnerable populations. Dr. DeSalvo was recognized as a Woman of Excellence in Health Care by the Louisiana Legislative Women's Caucus for her health care reform efforts in 2008 and led a delegation who received an award from the National Committee for Quality Assurance. Dr. DeSalvo is the current President of the Louisiana Health Care Quality Forum and 504HealthNet. She is past President of the National Association of Chiefs of General Internal Medicine. She has served on numerous local and national professional boards and is active in the community. She was most recently Professor of Medicine and Vice Dean for Community Affairs and Health Policy at the Tulane University School of Medicine. Dr. DeSalvo received her Bachelor of Arts from Suffolk University in Boston, Massachusetts, and her Medical Doctorate and Masters of Public Health from Tulane University Health Sciences Center. She is trained as an internist. Dr. DeSalvo completed a Masters in Clinical

Epidemiology at the Harvard School of Public Health and was a Robert Wood Johnson Generalist Physician Faculty Scholar.

#### **F. Daniel Duffy, MD, MACP**

Dr. Daniel Duffy is the Steven Landgarten Chair in Medical Leadership and Dean of the OU School of Community Medicine, Tulsa. After spending a tour of 10 years in Philadelphia as the Executive Vice President of the American Board of Internal Medicine, Dr. Duffy returned to Tulsa. At the ABIM he created the widely used self-administered practice improvement module that is now used across multiple certifying boards. He has been a leader in launching the new process for physician Maintenance of Certification that includes assessment and improvement of performance in practice. While in Philadelphia he held an adjunct professorship at the University of Pennsylvania in Internal Medicine and was a volunteer teacher at other Philadelphia medical schools.

At OU, Dr. Duffy has been instrumental in the development of the School of Community Medicine, serving on the strategic planning committee since inception and working tirelessly to develop the Community Medicine Curriculum. Dan has been most heavily focused on developing the business plan for a four-year school of community medicine, creating a collaborative positive institutional culture that assures financial and institutional stability. He has developed the Summer Institute for understanding Community Medicine, a Faculty Academy for developing faculty in community medicine, and a Student Academy which teaches third year students in the skills needed to provide care to disadvantaged patients suffering with chronic illness. He teaches in the Bedlam Longitudinal clinic and volunteers as an Internist in Bedlam Evening.

Dr. Duffy was a regent for the American College of Physicians from 1992-98, chair of the Board of Governors from 1991-92, and as Oklahoma governor for the College from 1988-91. He was Chair of the Department of Medicine at the University of Oklahoma in Tulsa where he was honored with the Stanton L. Young Master Teacher Award in 1989 and several awards from students and residents for excellence in teaching. Dr. Duffy was selected by the OU College of Medicine (OUCOM) students to receive the 2012 Aesculapian Full-Time Faculty Award. The award is given by OUCOM medical students to honor scholars for their dedication and excellence in teaching and outstanding contributions to the art of teaching.

Although he tries to limit travel from Tulsa, Dr. Duffy is a highly sought-after national speaker and consultant in medical education and quality of care. He has been recognized for his contribution with many having received many honors. He has been on the American Board of Medical Specialties and the chair of its MOC Committee. In his free time, Dan can often be found bike riding on the river trails. Dan and wife Kay have been married for 45 years. They have one adult son and two precious grandchildren.

#### **Malika Fair, MD, MPH**

Dr. Malika Fair is the Co-Principal Investigator of the Beyond Flexner Study and an Investigator for the Medical Education Partnership Initiative (MEPI). She also serves as the Clerkship Director of Emergency Medicine and the Co-Director of the Health Policy Track for The George Washington University School of Medicine and Health Sciences. Dr. Fair is an Assistant Professor in the Department of Emergency Medicine, and her research interests include access to care, community health, and medical education. Prior to her current position, Dr. Fair completed her residency training and chief residency at Carolinas

Medical Center in Charlotte, NC. She received her medical degree and Master's in Public Health from the University of Michigan in Ann Arbor, MI and bachelors of science from Stanford University in Stanford, CA.

### **Mark D. Fox, MD, PhD, MPH**

Mark D. Fox holds the Julian Rothbaum Chair in Community Health Research at the University of Oklahoma School of Community Medicine in Tulsa, where he is the Associate Dean for Community Health and Research Development. He is an Associate Professor in the Departments of Internal Medicine and Pediatrics.

A physician and ethicist, Dr. Fox completed his MD/PhD (Religion, Ethics, and Society) at Vanderbilt University. Dr. Fox completed his residency training in the combined Internal Medicine-Pediatrics residency program at the University of Rochester School of Medicine and Dentistry in New York. Following residency, Dr. Fox completed fellowship training in cardiovascular epidemiology and preventive cardiology and also earned his Master of Public Health at the University of Rochester.

Dr. Fox has a long-standing interest in health care for vulnerable populations. In 2004, he developed a hypertension specialty clinic as part of the free Bedlam Evening Clinic, to provide a referral source for patients seen in area safety net clinics. The Heart Improvement Project, a comprehensive cardiovascular risk reduction program serving uninsured patients with increased cardiovascular risk, was established in 2009, in collaboration with Neighbor for Neighbor in north Tulsa. In addition, he directs the Youth Services Outreach Clinic, serving sheltered and homeless youth in conjunction with Youth Services of Tulsa.

### **H. Jack Geiger, M.D., M.Sci.Hyg. (Epidemiology), Sc.D. (Hon.)**

Dr. Geiger is the Arthur C. Logan Professor Emeritus of Community Medicine, Sophie Davis School of Biomedical Education, at The City College of New York. He received his M.D. degree from Western Reserve University School of Medicine in 1958 and trained in internal medicine on the Harvard Service of Boston City Hospital from 1958-64. During this period he also earned a degree in epidemiology from the Harvard School of Public Health, was a Research Fellow at the Channing and Thorndike Laboratories, Harvard Medical School, and Postdoctoral Research Fellow, Joint Training Program in Social Science and Medicine, Harvard University. Before assuming the Logan Professorship at Sophie Davis in 1978, he was Chairman of the Department of Community Medicine at Tufts University Medical School (1968-71), Visiting Professor of Medicine, Harvard Medical School (1972-73), and Chairman of the Department of Community Medicine, School of Medicine, State University of New York at Stonybrook (1973-78). In 1983-84 he was Senior Fellow in Health Policy at the Center for Advanced Study in the Behavioral Sciences, Stanford, California.

Most of his professional career has been devoted to the problems of health, poverty and human rights. He initiated the community health center model in the U.S., combining community-oriented primary care, public health interventions, and civil rights and community empowerment and development initiatives, and was a leader in the development of the national health center network of more than 1,100 urban, rural and migrant centers currently serving some 20 million low-income patients at more than 8000 sites. From 1965-

71 he was Director of the first urban and first rural health centers in the U.S., at Columbia Point, Boston, and Mound Bayou, Mississippi.

He is a founding member and past president of Physicians for Human Rights, which shared in the Nobel Prize for Peace in 1998; a founding member and past president of Physicians for Social Responsibility, which shared in the Nobel Prize for Peace in 1985; and a founding member and past president of the Committee for Health in Southern Africa. In 1993, he was elected to Senior Membership in the Institute of Medicine, National Academy of Sciences, and in 1998 he received the IOM's Gustav O. Lienhard Award for creating a model of the contemporary community health center to serve the poor and disadvantaged and for contributions to the advancement of minority health. In 1998 he was also awarded the American Public Health Association's Sedgwick Memorial Medal for Distinguished Service in Public Health.

Dr. Geiger is the author or co-author of more than 100 scientific articles, book chapters and monographs on topics including community-oriented primary care, health care and poverty, community health centers, medical education, the health and environmental consequences of nuclear war and nuclear weapons production, and the role of physicians in the protection of human rights.

### **Joseph P. Grande, MD, PhD**

Joseph P. Grande, M.D., Ph.D., Associate Dean for Academic Affairs at the Mayo Medical School in Rochester, Minnesota. He is also the Chair of the Pathology and Cell Biology course. Dr. Grande is Professor of Pathology and Consultant in the Department of Laboratory Medicine and Pathology, Division of Anatomic Pathology and Experimental Pathology, and Surgical Pathology, and the Department of Internal Medicine, Division of Nephrology. As Associate Dean for Academic Affairs, Doctor Grande is responsible for the four-year undergraduate curriculum leading to the M.D. degree. He works with the block and clerkship chairs to design and deliver an educational program that promotes integration of basic and clinical sciences. He has also taught the cell biology and pathology course in Mayo Medical School for many years. He has been interested in finding new ways to use basic science to foster the development of clinical decision-making skills.

### **Lisa Graves, MD, FCFP**

Lisa Graves is currently the Associate Dean Undergraduate Medical Education at the Northern Ontario School of Medicine. She is a graduate of the University of Ottawa and completed her residency in family medicine and fellowship in maternal and child health at McGill University. Her teaching and research interests include undergraduate medical education, maternal and child health and vulnerable populations.

### **Mara L. Hover, DO**

Dr. Hover is currently the Associate Chair of the Department of Family and Community Medicine, Director of the Clinical Affairs Unit and Chair of the Curriculum Committee at A T Still University School Of Osteopathic Medicine in Arizona. In her role, she leads a main campus team of six staff members as well as 22 Regional Directors of Medical Education at 11 different Community Health Centers nationwide. The Clinical Affairs Unit oversees the medical student education process in years two through four. Dr. Hover is also a member of the Clinical Promotions Board, the SOMA catalog committee and the contextual learning

campus research team. She is Co-Principal Investigator of a grant to support the development of a dual Master's/DO degree and Masters in Medical Informatics, which is awarded by the United States Health Resources and Services Administration.

In addition to her Administrative position, Dr. Hover is a Course Director for the second year Medical Skills course and a contributing content expert for many of the first and second year didactic courses. She received the Excellence in Teaching award from AT Still University for her work as a Regional Director Of Medical Education prior to taking her current position. She is co-author of two research articles (en press) on student and faculty impressions of the Clinical Presentation curriculum model in medical education.

Dr. Hover graduated from Arizona State University with a BA in English Literature and a Minor in Broadcast Journalism and Communication. She received her Doctorate from Lake Erie College of Osteopathic Medicine and completed her residency in General Pediatrics at St. Joseph's Hospital and Medical Center/Barrow Neurological Institute in Phoenix, Arizona. Dr. Hover then Felloved in Forensic Pediatrics at Brown University in Providence, Rhode Island and is a graduate of the University of Southern California Keck Medical School Educational Leadership Fellowship.

### **Pedro José "Joe" Greer Jr., MD**

Pedro J. Greer Jr. is a physician, professor of medicine, author, father, and husband. Dr. Greer's commitment to the Hippocratic Oath fuels his passion for healthcare and health equity for all. During his training, he established and ran various free clinics for homeless, migrant, underserved, and undocumented persons in Miami-Dade County. Dr. Greer is currently the Assistant Dean for Academic Affairs and Founding Chair of the Department of Humanities, Health, and Society at Florida International University Herbert Wertheim College of Medicine, where he has led the creation and implementation of a unique curriculum that prepares physicians for the future. He is also Chief of Gastroenterology and Hepatology at Mercy Hospital in Miami, Florida.

Better known as "Joe", he has published over 25 articles and book chapters on topics ranging from hepatic and digestive disorders to policy, poverty and health in America. He also authored *Waking Up in America*, a book about his experiences, from providing care to homeless persons under bridges in Miami, Florida to advising US presidents on healthcare, Presidents Bush Sr. and Clinton. Additionally, Dr. Greer has advised and continues to work with state and local policy makers on healthcare.

Dr. Greer is a member of Alpha Omega Alpha, a Fellow of the American College of Physicians, and the American College of Gastroenterology. Among the many awards he has received, Dr. Greer is a recipient of the MacArthur "Genius" Fellowship and the Presidential Medal of Service presented by President Clinton, Bush, Carter, and General Colin Powell at the Presidential Summit in Philadelphia. In 2009, he was awarded the Presidential Medal of Freedom by President Obama, the highest civilian honor given in the United States. He has been honored Papal medals and knighted as a Knight of Malta and the Order of Saint Gregory the Great. He has received various Honorary Doctoral Degrees.

Dr. Greer currently serves on the Board of Trustees of the RAND Corporation and is a member of the executive committee. Additionally, he chairs the Pardee RAND Graduate School Board of Governors, the largest PhD granting institution for policy analysis. He is the immediate past chair of the Hispanic Heritage

Awards and has sat on the Board of Physicians for Human Rights, BNY Mellon Bank of Florida, and Dr. Pepper/7UP.

Dr. Greer completed his undergraduate studies at the University of Florida and medical studies at La Universidad Catolica Madre y Maestra in the Dominican Republic. He completed his postdoctoral studies at the University of Miami, where he was Chief Medical Resident and a fellow in Hepatology and Gastroenterology, earning two post-doctoral fellowship

He has been married for 32 years to Janus and they have two children, Alana and Joey, a dog and a cat.

### **Paul Grundy MD, MPH. FACOEM, FACPM**

Dr. Paul Grundy is one of only 38 IBMers and the only physician selected into IBM's senior industry leadership forum known as the IBM Industry Academy. Though he was born in Rhode Island, Paul's first language was Creole, which he learned growing up in Freetown, Sierra Leone. Founded with the help of his Quaker ancestors, Freetown was the home, for a time, of Paul's parents and grandparents.

He graduating as valedictorian from the Southern California College, he earned an M.D. from the University of California San Francisco medical school and a Masters of Public Health from the University of California Berkeley. An active social entrepreneur and speaker on global healthcare transformation, Dr. Grundy now concentrates his efforts on driving comprehensive, linked and integrated healthcare. His work has been covered by the *New York Times*, *BusinessWeek*, *Health Affairs*, *The Economist*, *The New England Journal of Medicine* and other newspapers, radio and television stations across the country. "I really became an IBMer because it gave the best platform in the world to use the tools of information technology and data to do for the doctor's mind what x-ray has done for their vision," he says.

Prior to joining IBM, Dr. Grundy worked as a senior diplomat in the U.S. State Department supporting the intersection of health and diplomacy. He was also the medical director for the International SOS, the world's largest medical assistance company and for Adventist Health Systems, the second-largest not-for-profit medical system in the world.

Dr. Grundy is the president of the Patient-Centered Primary Care Collaborative and is an adjunct professor at the University of Utah's Department of Family and Preventive Medicine. Dr. Grundy has won numerous awards. He was made an honorary member of the American Academy of Family three Department of State Superior Honor Awards and four Department of State Meritorious Service Awards. While in the U.S. Air Force, Paul received the Defense Superior Service Award and The Defense Meritorious Service Medal.

### **Kojar Jones, MD**

Kohar Jones is a physician-writer-educator with an interest in the social determinants of health and health equity. She pursued her undergraduate and medical training at Yale University, enjoyed her intern year at a Top 100 Community Hospital in Middlesex Connecticut, and completed her residency with Brown's Department of Family Medicine. As a National Health Service Corps Scholar, she practices at the federally qualified Chicago Family Health Center on Chicago's South Side. She also serves as an assistant clinical

professor with the Department of Family Medicine at the University of Chicago, and Director of Community Health and Service Learning with the Urban Health Initiative.

### **Betsy Jones, EdD**

Dr. Betsy Jones is Professor and Vice Chair of Family and Community Medicine at Texas Tech University Health Sciences Center in Lubbock, where she also serves as departmental Research Director. In addition, Dr. Jones is Regional Director of the Laura W. Bush Institute for Women's Health at TTUHSC. She received the Doctor of Education degree from Texas Tech University in 1983 and has been a faculty member in the School of Medicine since 1992. She works extensively with Texas Tech's Family Medicine Accelerated Track, as well as with medical school programs in geriatrics, women's health, and community engagement. Dr. Jones is also the Producer of the Texas Tech MedCast, an innovative series of teaching audio and video teaching podcasts for medical students and residents. In 2009, Dr. Jones was appointed as a member of the Society of Teachers of Family Medicine Research Committee.

### **Arthur Kaufman, MD**

Dr. Kaufman received his medical degree from the State University of New York, Brooklyn in 1969 and is Board Certified in Internal Medicine and Family Practice. He served in the U.S. Indian Health Service, caring for Sioux Indians in South Dakota and Pueblo and Navajo Indians in New Mexico, before joining the Department of Family and Community Medicine at the University of New Mexico in 1974, where he has remained throughout his career, providing leadership in teaching, research and clinical service. He was promoted to full Professor in 1984 and Department Chair in 1993. In 2007, he was appointed as the first Vice Chancellor for Community Health, and was promoted to Distinguished Professor in 2011.

Dr. Kaufman's has a passion for creating innovative education and service models to better address community, indigent, rural and population health needs. He helped initiate the Primary Care Curriculum in New Mexico which became an international model for change by innovative track in traditional medical schools. He began to integrate Public Health and Family Medicine as Director of the Rockefeller funded Health of the Public Program in New Mexico. He is Director of New Mexico's World Health Organization Collaborating Center for Innovative Health Workers Education Service and Research Models. In 1999 he was elected Secretary General for the Network: Towards Unity for Better Health-- a WHO-affiliated, non-government organization comprised mostly of academic health centers in developing countries interested in improving their relevance in education and service in addressing health needs of their local populations.

Dr. Kaufman has been the recipient of many awards during his career. He has received national teaching awards from the Association of American Medical Colleges (Primary Care Award) and from Society of Teachers of Family Medicine (Achievement Award). He received the "Humanism in Medicine Award (AAMC)" in 2001 and the "5 Star Doctor Award" from WONCA in 2008.

He has over 70 publications and has written 4 books. His publications concern healthcare for uninsured and marginalized populations and problem-based and community-oriented teaching innovations. He has received numerous federal and private foundation grants to support his work.

His other passion is his family, his wife Ellen and their children Holly and Will, who are all physicians.

## **David Kendrick, MD, MPH**

Dr. David Kendrick is the principle investigator and CEO of the MyHealth Access Network, a Beacon Community. MyHealth is focused on improving health in the greater Tulsa area by implementing a community-wide infrastructure for healthcare IT. MyHealth is focused on providing advanced health information exchange, community-wide care coordination tools, and a robust decision support platform to support providers striving to provide high quality care in the face of overwhelming data availability. An advanced community analytics platform is being implemented to enable evaluation and measurement of health and performance across the community.

David is also an associate professor of internal medicine and pediatrics and the Kaiser Chair of Community Medicine at the University of Oklahoma's School of Community Medicine (SOCM). In addition, he serves the University's Health Sciences Center as the Provost for Strategic Planning and serves as the Chief of the Division of Community Medical Informatics. In this capacity, David is charged with defining and implementing healthcare information systems strategy for the SOCM and the community it serves. In particular, Dr. Kendrick is developing systems required to support patient centered medical homes and to connect them with one another in ways that measurably improve the lives of patients and ultimately the health and quality of life of the entire community.

## **Kathleen Klink, MD**

Dr. Kathleen Klink is a Family Physician, and the Director of the Bureau of Health Professions Division of Medicine and Dentistry at the Health Resources and Services Administration (HRSA) in the U.S. Department of Health and Human Services. The Bureau of Health Professions provides national leadership in the development, distribution and retention of a diverse, culturally competent healthcare workforce that provides high quality care for all Americans. Dr. Klink's efforts are focused on the Bureau's initiatives to develop access to primary care and oral health services through workforce and educational infrastructure development.

Prior to joining HRSA, Dr. Klink was the director of the Columbia University Center for Family and Community Medicine and Chief of Service for Family Medicine at New York Presbyterian Hospital where she led the expansion of the Center to enhance the research and development missions. She co-chaired the patient centered medical home committee of the Washington Heights Initiative, a Columbia University Medical Center effort to measurably improve the health of the northern Manhattan region of New York City, a largely immigrant, Spanish-speaking community.

Her interests are in primary care workforce development, evidence based health systems, interprofessional education and practice, quality improvement and access to care, particularly for vulnerable and disadvantaged people.

Dr. Klink completed service in the office of Senator Hillary Rodham Clinton as a Robert Wood Johnson Health Policy Fellow in December 2008, where she worked with senior health staff in evaluating and formulating legislation to reauthorize title VII of the U.S. Public Health Service Act. This legislation's

focus is strengthening the primary care workforce, access to primary care services, and improving minority representation in the health professions.

She began her professional medical career at Coney Island Community Health Center, located in a Brooklyn neighborhood devastated by the crack epidemic. She became the medical director, and spearheaded community initiatives and quality improvement projects, before moving to SUNY Downstate Medical Center where she was the associate residency director for family medicine and led as the medical director SUNY's first off-site health center located in the community. In 1996 she became a founding faculty member of the family medicine program at (then) Presbyterian Hospital, and was the director from 2000 until 2010.

She received her M.D. degree from the University of Miami in 1985 and completed her residency training at Jackson Memorial Hospital in family medicine in 1988.

### **Barbara Ross-Lee, DO, FACOFP**

Dr. Ross-Lee is the first African-American woman to serve as dean of a United States medical school. She is also the first osteopathic physician to participate in the Robert Wood Johnson Health Policy Fellowship.

Dr. Ross Lee served as legislative assistant for health to Senator Bill Bradley. She has an extensive background in health policy issues, and serves as an advisor on primary care, medical education, minority health, women's health and rural health care issues on the federal and state levels. She is Vice-President for Health Sciences and Medical Affairs at New York Institute of Technology and is the Executive Director of the National Osteopathic Center for Health Policy where she serves as Director of the American Osteopathic Association (AOA) Health Policy Fellowship program, which prepares mid-career osteopathic physicians for leadership roles in health policy; Director of the Training in Policy Studies (TIPS) for post-graduate (resident physicians) osteopathic trainees; Director of the Institute for National Health Policy and Research; and as a member of the Executive Committee of the National Osteopathic Medical Association, a medical association of minority osteopathic physicians. She is the past President of the Board of Directors of the Association of Academic Health Centers and the past Chair of the American Association of Colleges of Osteopathic Medicine Board of Governors. Dr. Ross-Lee served as a commissioned officer, United States Naval Reserves Medical Corps, achieving the rank of Captain. She has lectured widely, and published numerous scholarly articles on a variety of medical, healthcare issues. She has received seven honorary degrees and many national awards.

### **Rika Maeshiro, MD, MPH**

Dr. Maeshiro is director of public health and prevention projects at the Association of American Medical Colleges (AAMC), where her responsibilities include serving as the deputy principal investigator for AAMC's cooperative agreement with the Centers for Disease Control and Prevention (CDC) and the principal investigator for the Regional Medicine-Public Health Education Center initiative, an effort to improve population health, public health, and prevention content in medical education. Prior to joining the AAMC in 2002, Dr. Maeshiro worked in the Public Health Practice Program Office of the CDC, where her activities included early work in National Public Health Performance Standards and Bioterrorism Preparedness Planning. She has also worked at the Office of Disease Prevention and Health Promotion in

the Department of Health and Human Services and the Office of Environment, Safety, and Health at the U.S. Department of Energy. Dr. Maeshiro is a 1987 graduate of the University of Michigan Medical School, and completed residency training in internal medicine at Boston City Hospital, and in general preventive medicine/public health at the Johns Hopkins School of Hygiene and Public Health. She is board-certified in internal medicine and general preventive medicine/public health. Her clinical practice had focused on primary care and HIV care in underserved inner city and rural areas.

### **Wesley G. Robinson-McNeese, MD**

Dr. Robinson-McNeese serves as Executive Assistant to the Dean for Diversity, Multicultural and Minority Affairs, Southern Illinois University School of Medicine, Springfield, IL. McNeese is an Emergency Physician, and an Associate Professor in the Departments of Internal Medicine and Humanities at SIU.

Dr. McNeese is married and the father of eight children. His wife is LaVern Ollie, formerly of Pine Bluff, AR. A native of East St. Louis, IL, McNeese served as an Air Force Morse Intercept Operator in Vietnam and achieved the rank of Technical Sergeant before becoming a military paramedic. He was Editor of *The Crusader*, a weekly newspaper in his hometown before attending college.

His undergraduate education was at Anderson University, IN, Illinois State University-Normal and Southern Illinois University-Carbondale. His medical training was at Southern Illinois University School of Medicine ('86), and then a Residency at McGaw Medical Center, Northwestern Medical School, Chicago, IL ('90).

### **Thomas McWilliams, DO, FACOFP**

Dr. Thomas E. McWilliams is the Interim Dean and a clinical professor at A.T. Still University-School of Osteopathic Medicine in Arizona. A third generation D.O., he entered the Indian Health Service as one of the first Public Health Service scholarship recipients. He is a diplomat for the American Osteopathic Board of Family Physicians and the American Board of Emergency Medicine.

Dr. McWilliams completed fellowships in Rural Medicine, National Health Policy, Teaching and Learning, and Leadership. He has held teaching appointments at the University of Washington, the Kirksville College of Osteopathic medicine, and was the founding Associate Dean at the Arizona College of Osteopathic Medicine. He is a past-president of both the Arizona and Missouri Rural Health Associations.

### **Andrew Morris-Singer, MD**

Dr. Morris-Singer is a former community organizer and trainer with over 15 years of advocacy experience. In addition to leading Primary Care Progress, he speaks regularly on the topics of primary care community advocacy, strategic organizing in the healthcare space and the critical role of trainees in the revitalization of primary care. He is Board Certified in Internal Medicine and works as a primary care physician at a new patient centered medical home practice in Boston. He is an Instructor in Medicine at Harvard Medical School, and lives in Cambridge, MA.

## **Charles P. Mouton, M.D., M.S.**

Charles P. Mouton is senior vice president for health affairs and dean of the School of Medicine at Meharry Medical College in Nashville, Tenn. He is also Professor of Family and Community Medicine at Meharry Medical College and Professor of Medical Education and Administration at Vanderbilt University School of Medicine. As dean, Dr. Mouton serves as chief academic and administrative officer of the school and is responsible for academic programs, student affairs, graduate medical education, curriculum development and management and financial management of Meharry's largest academic unit. As senior vice president of health affairs, he is responsible for overseeing, enhancing and expanding Meharry clinical programs, working closely with key stakeholders of the College and within the community.

Dr. Mouton is board certified in family medicine and holds a certificate of added qualifications in geriatrics. Additionally, he is a certified medical director. He received his bachelor's degree in engineering from Howard University. He also holds a Master of Science degree in epidemiology from the Harvard University School of Public Health and a Master of Science degree in clinical epidemiology from the Harvard University School of Public Health. He received his medical degree from the Howard University College of Medicine, completed a family practice residency at Prince George's Hospital Center in Cheverly, Md. and finished a geriatrics fellowship at The George Washington Medical Center.

Dr. Mouton's major areas of research interests are violence and elderly mistreatment in older women, health promotion and disease prevention in minority elders (especially exercise for the elderly), ethnicity and aging and quality health care for minorities. He is a noted lecturer and has authored several articles and chapters in textbooks. He has received numerous awards and is an outstanding academician and clinician.

*Washingtonian* magazine placed Dr. Mouton on its list of Best Doctors. He is a fellow of the American Academy of Family Physicians and a fellow of the American Geriatrics Society. He also is past president of the D.C. Academy of Family Physicians and is section chair-elect for 2011 of the Family Medicine Section of the National Medical Association (NMA). With a stellar record of education and patient care, Dr. Mouton has spent his career contributing to improvements in the health care system.

## **Fitzhugh Mullan, MD**

Fitzhugh Mullan is the Murdock Head Professor of Medicine and Health Policy at the George Washington University School of Public Health and a Professor of Pediatrics at the George Washington University School of Medicine. His research and policy work focus on US and international health workforce issues with particular emphasis on capacity building in Africa. He is the Principal Investigator of the Medical Education Partnership Initiative (MEPI) Coordinating Center, a NIH/HRSA/PEPFAR funded 12 country African medical education project. He previously served as Principal Investigator of the Gates funded Sub-Saharan African Medical School Study (SAMSS). His US work includes the Kellogg Foundation funded Beyond Flexner Study and the Medical Education Futures Study. He is an appointed commissioner of the National Health Care Workforce Commission.

Dr. Mullan graduated from Harvard University with a degree in history and from the University of Chicago Medical School. He trained in pediatrics and was commissioned in the United States Public Health Service where he worked in New Mexico as one of the first members of the National Health Service Corps. During

23 years in the Public Health Service he served in many capacities including director of the National Health Service Corps, director of the Bureau of Health Professions, Secretary of Health and Environment for the State of New Mexico, and as an Assistant Surgeon General. He was a member of both the President's Task Force on Health Care Reform and the Council on Graduate Medical Education. In 1996, he retired from the Public Health Service, joined the faculty at George Washington University and the staff of the journal *Health Affairs* where he is a Contributing Editor and the founding editor of the Narrative Matters section.

Dr. Mullan has written widely for both professional and general audiences on medical and health policy topics. His books include *White Coat Clenched Fist: The Political Education of an American Physician*, *Vital Signs: A Young Doctor's Struggle with Cancer, Plagues and Politics: The Story of the United States Public Health Service*, and *Big Doctoring in America: Profiles in Primary Care*. Dr. Mullan is the Founding President of the National Coalition for Cancer Survivorship. He is the recipient of the American Cancer Society's 1988 Courage award, the Society for Surgical Oncology's 1989 James Ewing medal, as well as the Surgeon General's Medallion, and the United States Public Health Service's Distinguished Service Medal. He is a member of the Institute of Medicine of the National Academy of Sciences.

### **David Muller, MD**

Dr. Muller received his BA from Johns Hopkins University and his MD from New York University School of Medicine. He completed his Internship and Residency in Internal Medicine at the Mount Sinai Medical Center, where he spent an additional year as Chief Resident. Upon completing his training Dr. Muller co-founded and directed the Mount Sinai Visiting Doctors Program. Visiting Doctors is now the largest academic physician home visiting program in the country. In May 2005 Dr. Muller was appointed Dean for Medical Education and Chair of the Department of Medical Education. His recent honors include the Jacobi Medallion (2011), Founder's Award, Mount Sinai Visiting Doctors, Departments of Medicine and Geriatrics (2010), the AMA Pride in the Profession Award (2009), Department of Medicine's Ruth Abramson Humanism in Medicine Award (2005) the Alexander Richman Commemorative Award for Humanism in Medicine (2005), induction into the Gold Humanism Honor Society (2004), and the Casita Maria Community Builder Award (2002). Dr. Muller is Professor of Medicine and Medical Education and is a Fellow of the New York Academy of Medicine.

### **Marc A. Nivet, Ed.D.**

Marc A. Nivet, Ed.D. is Chief Diversity Officer for the Association of American Medical Colleges, where he *provides strategic vision and programmatic leadership around diversity and inclusion*. Through his advising, lectures and writing, Dr. Nivet has worked to reframe the narrative around diversity, positioning it as a driver of excellence and highlighting the link between community engagement and health equity. He encourages audiences to elevate diversity out of its silo and into the company of talent management and strategic planning to transform organizations and, ultimately, communities. In the context of academic medicine, this means making diversity core to the overall mission of better health outcomes for all.

Dr. Nivet serves the diversity and academic medicine communities on a variety of boards and commissions. He is a member of the Arnold P. Gold Foundation Board of Trustees, the Robert Wood Johnson Foundation's New Careers in Nursing Scholarship Advisory Committee, the American Dental Education

Association's Commission on Change and Innovation in Dental Education, the Beyond Flexner Advisory Council, and the CDC Medical College Roundtable.

### **Robert L. Phillips, Jr., MD, MSPH**

Dr. Phillips is a family physician and Director of the Robert Graham Center: Policy Studies in Family Medicine and Primary Care in Washington, DC. The Graham Center functions as a division of the American Academy of Family Physicians, with editorial independence, staffed by a small research team focused on providing evidence to help inform policy-making.

Dr. Phillips is a graduate of the Missouri University for Science and Technology, the University of Florida College Of Medicine, and did residency training at the University of Missouri-Columbia. He completed a two- year NRSA research fellowship and practiced in a federal housing Federally Qualified Health Center in Boone County, Missouri. He now practices part-time in a community-based residency program in Fairfax, Va.

Dr. Phillips is a Professor of Family & Community Medicine at Georgetown University and has faculty appointments at George Washington University and Virginia Commonwealth University. He recently served as Vice-Chair of the U.S. Council on Graduate Medical Education, and was appointed by the Secretary of Health and Human Services to the Federal Negotiated Rule Making Committee on Health Workforce Shortage Redesignation. Dr. Phillips was elected to the Institute of Medicine in 2010.

### **Claire Pomeroy, MD, MBA**

Claire Pomeroy is an expert in infectious diseases and a professor of internal medicine and microbiology and immunology. She oversees UC Davis Health System and all of its academic, research and clinical programs, including the School of Medicine, the Betty Irene Moore School of Nursing, the 800-member physician practice group and UC Davis Medical Center. Pomeroy joined UC Davis in 2003 as executive associate dean of the School of Medicine, and was appointed vice chancellor and dean in 2005.

Pomeroy founded the Center for Reducing Health Disparities and led the establishment of Rural-PRIME, a program designed to prepare physicians to practice in underserved rural communities. She is principal investigator for the NIH-funded Building Interdisciplinary Research Careers in Women's Health (BIRCWH) program.

Pomeroy leads an active research team studying host responses to viral infections. As a clinician, she is a long-time advocate for patients with HIV/AIDS. She has a special interest in health-care policy, and has led efforts to advance electronic health records to improve health care. She has published more than 100 articles and book chapters and edited three books.

She is a member of the Independent Citizens Oversight Commission that governs the California Institute for Regenerative Medicine, the stem-cell initiative approved by California voters in 2004. She is chair-elect of the board of directors of AAHC, chair of the Council of Deans of the AAMC, on the board of directors for the NIH Office of Research on Women's Health Advisory Committee, on the board of governors for the Foundation for Biomedical Research, and was elected as member-at-large representative for the AAAS

(medical sciences section). Active in the national arena, she was inducted into the Institute of Medicine in 2011.

Pomeroy received bachelors and medical degrees from the University of Michigan and completed her residency and fellowship training in internal medicine and infectious diseases at the University of Minnesota. She earned an MBA from the University of Kentucky. She held faculty positions at the University of Minnesota and the University of Kentucky prior to her move to UC Davis. At the University of Kentucky, she served as associate dean for research and informatics and as a member of the University Board of Trustees.

### **Joan Y. Reede, MD, MPH, MS, MBA**

Dr. Reede is the Dean for Diversity and Community Partnership and an Associate Professor of Medicine at Harvard Medical School. Dr. Reede also holds appointments as Associate Professor of Society, Human Development and Health at the Harvard School of Public Health, and is an Assistant in Health Policy at Massachusetts General Hospital. Dr. Reede is responsible for the development and management of a comprehensive program that provides leadership, guidance, and support to promote the increased recruitment, retention, and advancement of underrepresented minority faculty at Harvard Medical School (HMS). This charge includes oversight of all diversity activities at HMS as they relate to faculty, trainees, students, and staff. Dr. Reede also serves as the director of the Minority Faculty Development Program, and faculty director of Community Outreach Programs at Harvard Medical School.

Dr. Reede has created and developed more than 16 programs at HMS that aim to address pipeline and leadership issues for minorities and women who are interested in careers in medicine, academic and scientific research, and the healthcare professions. She has developed mentoring programs for underrepresented minority students from middle school through the graduate and medical school levels. Dr. Reede designed a training program for middle and high school teachers, developed science curricula for public schools, implemented research and exchange clerkship programs at HMS, and she also designed and implemented two innovative fellowships in minority health policy for physicians, dentists, and doctoral-level mental health professionals. In 1991, Dr. Reede founded the Biomedical Careers Program (BSCP) in collaboration with the Massachusetts Medical Society and the New England Board of Higher Education. BSCP is a collaborative, community-based organization involving academia, private industry, medical centers, public education, and professional societies. This organization was created to identify, support, and provide mentoring for underrepresented minority students, trainees, and professionals pursuing biomedical careers.

On a national level, Dr. Reede was appointed to the Health and Human Services Advisory Committee on Minority Health, as a Commissioner of the Sullivan Commission on Diversity in Healthcare Workforce, and as a member of the Secretary's Advisory Committee to the Director of the National Institutes of Health. Dr. Reede serves on the editorial board of the American Journal of Public Health; she is a former member of the board of directors for the National Hispanic Medical Association, and a current member of American Hospital Association Equity of Care Committee. In 2009, Dr. Reede was elected as a member of the Institute of Medicine of the National Academy of Sciences. In 2011, Dr. Reede was appointed to the steering committee of the Annual Biomedical Research Conference for Minority Students (ABRCMS). Dr. Reede is the recipient of the 2011 Diversity Award from the Association of Professors of Medicine.

### **Paul H. Rockey, MD, MPH**

Dr. Rockey directs the Division of Graduate Medical Education at the American Medical Association. He provides leadership and liaison for the AMA in GME issues and supervises collection and dissemination of information about the more than 8,600 U.S. residency and fellowship programs.

He earned an M.D. from the University of Chicago in 1970, then completed internal medicine training, was a Robert Wood Johnson Clinical Scholar and earned an MPH, all at the University of Washington. In Seattle, he initiated the primary care internal medicine residency training program, was chief executive officer of a multi-specialty group practice, and an assistant dean and associate professor at the U of W. Before becoming AMA staff in 2003, he was the Associate Dean for Clinical Affairs at Southern Illinois University School of Medicine

### **Robert Sapién, MD**

Dr. Robert Sapién has been a Pediatric Emergency Medicine sub-specialist for 20 years, establishing the first and only Pediatric Emergency Department in NM. As a tenured professor in Emergency Medicine and Pediatrics at the University of NM Health Sciences Center, he serves as Associate Dean for Admissions, Chief of Emergency Pediatric Medicine, Director of the Combined BA/MD Degree Program, and Director of the NM EMS for Children Program. He is recognized as a national expert in emergency asthma care and school emergencies.

The University of New Mexico School of Medicine and Health Sciences Center are committed to racial and ethnic diversity with special reference to the inclusion of students from groups that are underrepresented in medicine in the state of New Mexico.

### **David Satcher, MD, PhD**

David Satcher is Director of The Satcher Health Leadership Institute which was established in 2006 at the Morehouse School of Medicine in Atlanta, Georgia. Dr. Satcher was sworn in as the 16<sup>th</sup> Surgeon General of the United States in 1998. His tenure of public service also includes serving as Director of the Centers for Disease Control and Prevention (CDC). He was the first person to have served as Director of the CDC and then Surgeon General of the United States. Dr. Satcher has held top leadership positions at the Charles R. Drew University for Medicine and Science, Meharry Medical College, and the Morehouse School of Medicine.

### **John Schumann, MD**

Dr. John Henning Schumann is a writer, internist, and Associate Professor of Medicine at the University of Oklahoma School of Community Medicine in Tulsa, where he serves as Associate Director of the Internal Medicine Residency Program.

Before Tulsa, Dr. Schumann was on the faculty at the University of Chicago, where he served as board co-chair of the university's interdisciplinary Human Rights Program. He writes the popular blog GlassHospital, which demystifies medicine and health care.

### **Stephen C. Shannon, DO, MPH**

Stephen C. Shannon has been President of the American Association of Colleges of Osteopathic Medicine (AACOM) since January 2006. Prior to assuming this position, he served as Vice President for Health Services and Dean of the College of Osteopathic Medicine at the University of New England since 1995. He served as Chair of the AACOM Board of Deans from July 2003 to June 2005.

Dr. Shannon earned his doctor of osteopathic medicine degree in 1986 from the University of New England College of Osteopathic Medicine in Biddeford, Maine, and his master's of public health degree in 1990 from the Harvard University School of Public Health. He is board certified in osteopathic family practice and preventive medicine. He also holds B.A and M.A. degrees in American History from the University of Maryland.

As President of the American Association of Colleges of Osteopathic Medicine, Dr. Shannon serves as spokesperson on behalf of the nation's colleges of osteopathic medicine, articulating the community's priorities and positions in a variety of national and international settings. Dr. Shannon also guides the association in fulfilling its vision and mission, and in positively influencing state, federal, and executive branch policy formulation relative to medical education.

Dr. Shannon has strong professional interests in public health and preventive medicine, and in major research areas of clinical outcomes study, occupational and environmental health, health promotion and disease prevention, health professions workforce, rural health and medical school curriculum. He served as a member of HRSA's Advisory Committee on Training in Primary Care Medicine and Dentistry.

He has a long history of leadership and service in public health. He was instrumental in the development of a Master of Public Health program at the University of New England and prior to his appointment as dean was Director of Occupational and Environmental Health at the Maine Bureau of Health. He has served on numerous public health boards and commissions and is a founder and past Chair of the Board of the Maine Center for Public Health.

In addition, he is past president of the Maine Biomedical Research Coalition and was a member of the state's Biomedical Research Board. Dr. Shannon was instrumental in implementing biomedical research expansion within the University of New England, targeting such areas as diabetes' impact on heart disease and the neurophysiology of pain, memory and addiction.

He received the Dan Hanley Memorial Trust 2003 Leadership Award in June 2003 and the Finance Authority of Maine's Distinguished Service Award in the Field of Higher Education in November 2002. In his position at the University of New England, Dr. Shannon provided oversight for the education of approximately 500 medical school students and residents, the research activities of the biomedical and clinical faculty and the clinical services provided by the clinical faculty members in University Health Services.

## **Ross D. Silverman, JD, MPH**

Dr. Silverman is Professor and Chair of the Department of Medical Humanities and Professor of Psychiatry at Southern Illinois University School of Medicine, and is Professor of Medical Jurisprudence at Southern Illinois University School of Law. At the School of Medicine, Professor Silverman also serves as Chair of the Admissions Committee and co-director of the school's dual-degree MD/JD program. His research, teaching and service addresses a wide array of issues pertaining to public health and medical law, policy, and ethics, and his publications have appeared in leading medical, public health and ethics journals. He is Editor of *The Journal of Legal Medicine*, the peer-reviewed journal of the American College of Legal Medicine, serves as the lead annotator of the American Medical Association Council on Ethical and Judicial Affairs *Code of Medical Ethics: Current Opinions with Annotations*, and is an author and editor of the two-volume text, *Illinois Practice Series: The Law of Medical Practice in Illinois (3<sup>rd</sup> Edition)*. In addition to his work at the School of Medicine, Professor Silverman is active on health care and human rights issues in his community, where he serves an appointment as Commissioner for the Springfield Disabilities Commission, is a long-standing member of the Memorial Medical Center Human Values and Ethics Committee, and regularly volunteers at Sojourn Shelter and Services, Inc., the regional domestic violence social service agency.

## **Henry M. Sondheimer, MD**

Dr. Sondheimer is the Senior Director for Medical Education Projects at the AAMC. In this position he manages the staff of the Holistic Review Project, co-directs the Admissions Initiative, and leads the Academic Affairs work on the Student Surveys. Dr. Sondheimer is also the Principal Investigator on the New and Developing Medical Schools Consortium, a Macy Foundation sponsored four year study of sixteen of the new and candidate medical schools across the United States.

Dr. Sondheimer graduated from the College of Physicians and Surgeons of Columbia University and did his postgraduate training at the University of Colorado (pediatrics) and the Hospital for Sick Children, Toronto (pediatric cardiology). He was on the faculty of Upstate Medical Center from 1976-1985 and the University of Colorado School of Medicine from 1985-2007. From 2002-2007 he was Associate Dean for Admissions at Colorado as well as the Clinical Director of Pediatric Cardiology at The Children's Hospital, Denver.

Dr. Sondheimer sees the AAMC as the ideal venue to attempt to deal with the three most important issues facing American medicine at this time: the lack of diversity in the physician workforce, the unprecedented rise in medical student debt, and the current failure of U.S. medical school graduates to choose primary care careers. In addition to his work at the AAMC, Dr. Sondheimer is a consultant on the Medical Education Partnership Initiative, a five year NIH grant (2011-2015) on medical education in Africa.

## **Harry S. Strothers III, MD, MMM**

Dr. Strothers is Chairman and Professor of the Department of Family Medicine at Morehouse School of Medicine (MSM). He also serves as Geriatric team leader for the National Center for Primary Care at MSM and as Medical Director for Crestview Nursing and Rehabilitation Center.

Dr. Strothers received his medical degree from the University of Maryland School of Medicine in 1982 and stayed for residency training in Family Medicine. He is board certified in Family Medicine, has a Certificate of Added Qualifications in Geriatrics, and a Certificate in Medical Management from the American College of Physician Executives and Tulane University. He finished his Masters in Medical Management at Tulane University School of Public Health and Tropical Medicine in May 2000.

Dr. Strothers started practice at a rural National Health Service Corps site in South Carolina. After leaving the rural health center, he was Director of Primary Care Services for Palmetto SeniorCare, a Program of All-Inclusive Care for the Elderly (PACE) from 2/90 through 4/91. After Palmetto SeniorCare, Dr. Strothers worked as Geriatrician and Quality Improvement coordinator for the SC Department of Mental health. He taught Family Medicine and Geriatrics part-time 9 years for the University of South Carolina before moving to MSM in 1994.

At MSM, Dr. Strothers has served as Residency Director, Acting Medical Director, Interim Chairman and Associate Chairman for Academic Programs for the Department of Family Medicine. He and his team implemented the school's first Electronic Health Record in 2001. In 2000, he was named Family Practice Educator of the Year by the Georgia Academy of Family Physicians.

Dr. Strothers is currently Chairman of the Board of the Georgia Academy of Family Physicians. He served as the Secretary-Treasurer of the Society of Teachers of Family Medicine and has been on the HHS Advisory Committee on Training in Primary Care Medicine and Dentistry.

He has been the Principal Investigator for two Graduate Training in Primary Care Training Grants from the Health Resources and Services Administration. He is currently chair the MSM Faculty Promotion committee and the practice plan Quality Committee, as well as having been chair of the Education committees for the Georgia Academy of Family Physicians, American Academy of Family Physician, and the Society of Teachers of Family Medicine.

### **George E. Thibault, MD**

George E. Thibault, MD became the seventh president of the Josiah Macy Jr. Foundation in January 2008. Immediately prior to that, he served as Vice President of Clinical Affairs at Partners Healthcare System in Boston and Director of the Academy at Harvard Medical School (HMS). He was the first Daniel D. Federman Professor of Medicine and Medical Education at HMS and is now the Federman Professor, Emeritus.

Dr. Thibault previously served as Chief Medical Officer at Brigham and Women's Hospital and as Chief of Medicine at the Harvard affiliated Brockton/West Roxbury VA Hospital. He was Associate Chief of Medicine and Director of the Internal Medical Residency Program at the Massachusetts General Hospital (MGH). At the MGH he also served as Director of the Medical ICU and the Founding Director of the Medical Practice Evaluation Unit.

For nearly four decades at HMS, Dr. Thibault played leadership roles in many aspects of undergraduate and graduate medical education. He played a central role in the New Pathway Curriculum reform and was a leader in the new Integrated Curriculum reform at HMS. He was the Founding Director of the Academy at

HMS, which was created to recognize outstanding teachers and to promote innovations in medical education. Throughout his career he has been recognized for his roles in teaching and mentoring medical students, residents, fellows and junior faculty. In addition to his teaching, his research has focused on the evaluation of practices and outcomes of medical intensive care and variations in the use of cardiac technologies.

Dr. Thibault is Chairman of the Board of the MGH Institute of Health Professions, and he serves on the Board of the New York Academy of Sciences, the Institute on Medicine as a Profession, and the Lebanese American University. He serves on the President's White House Fellows Commission and for twelve years he chaired the Special Medical Advisory Group for the Department of Veteran's Affairs. He is past President of the Harvard Medical Alumni Association and Past Chair of Alumni Relations at HMS. He is a member of the Institute of Medicine of the National Academy of Sciences.

Dr. Thibault graduated summa cum laude from Georgetown University in 1965 and magna cum laude from Harvard Medical School in 1969. He completed his internship and residency in Medicine and fellowship in Cardiology at Massachusetts General Hospital (MGH). He also trained in Cardiology at the National Heart and Lung Institute in Bethesda and at Guys Hospital in London, and served as Chief Resident in Medicine at MGH.

Dr. Thibault has been the recipient of numerous awards and honors from Georgetown (Ryan Prize in Philosophy, Alumni Prize, and Cohongaroton Speaker) and Harvard (Alpha Omega Alpha, Henry Asbury Christian Award and Society of Fellows). He has been a visiting Scholar both at the Institute of Medicine and Harvard's Kennedy School of Government and a Visiting Professor of Medicine at numerous medical schools in the U.S. and abroad.

### **David A. Wayne, PhD, MEd, MS**

Dr. David Wayne is the Special Assistant to the Senior Vice President - Academic Affairs at A. T. Still University of Health Sciences. Formerly Associate Dean of Assessment, Accreditation and Faculty Enrichment at the university's Arizona School of Health Sciences his career has spanned education and health care. He was the Director of a Family Practice Residency in Arizona, one of the few non MD's or DO's in the country running such a program. David was CEO of an international consulting company, Four Seasons, working in health care, government and education in areas of planning and capacity building, throughout North America, Europe and Asia. Originally from McMaster University in Canada, working in the Department of Psychiatry, Dr. Wayne came to the U.S. twenty-six years ago.

He holds a Ph.D. in clinical psychology, a post-doctoral diploma in organizational psychiatry and Masters' degrees in Education and Counseling. David is the author of books on leadership, peer helping and special education and was a major contributor to recent books on facilitation and allied health. He was the recipient of the R. W. B. Jackson Award for outstanding educational research in Canada and is a past chair of the International Association of Facilitators. David was a fellow of the National Institute for Program Director Development of the Association of Family Medicine Residency . Directors He serves on several national and local boards of non-profits and NGO's.

### **Donald L. Weaver, MD**

Dr. Weaver has a lifelong commitment to improving the health of underserved communities and vulnerable populations through the provision of community-responsive, culturally competent care by interdisciplinary teams.

Dr. Weaver is the Chief Medical Officer for the National Association of Community Health Centers (NACHC). In addition to leading NACHC's Clinical Affairs Division, he oversees NACHC's activities regarding clinical workforce issues, residency and medical school training. He also provides technical assistance to primary care associations, residency programs, and hospitals regarding health profession training issues.

Prior to joining NACHC, Dr. Weaver had a distinguished career as a Commissioned Officer in the United States Public Health Service (USPHS), retiring with the rank of Assistant Surgeon General in January 2011. Dr. Weaver began his career in the USPHS in 1975 as a National Health Service Corps (NHSC) volunteer physician in Tooele, Utah. During his career he served in a variety of regional and national leadership positions with both health professions and service delivery programs; including Director of the Division of Medicine, Director of the NHSC, and Deputy Associate Administrator for Primary Health Care at the Health Resources and Services Administration. A 1973 graduate of Harvard Medical School, Dr. Weaver completed a two-year pediatric residency at Boston's Children's Hospital Medical Center and is a diplomate of the American Board of Family Medicine.

### **Debra Weinstein, MD**

Dr. Debra Weinstein is Vice President for Graduate Medical Education at the Partners Healthcare System. In this role she is responsible for overseeing more than 200 graduate medical education (GME) programs with 2000 residents and fellows. Dr. Weinstein is a graduate of Wellesley College, where she majored in Music. After receiving her M.D. from Harvard Medical School, she completed clinical training in Internal Medicine and Gastroenterology at Massachusetts General Hospital, where she served as Chief Resident and later as Associate Chief and Program Director in Internal Medicine. She is an Assistant Professor of Medicine at Harvard Medical School and maintains a limited practice in gastroenterology.

Dr. Weinstein serves on the Board of Directors of the Accreditation Council on Graduate Medical Education (ACGME) and Chairs the Journal Oversight Committee for the ACGME's Journal of GME. She is also on the Board of the MGH Institute for Health Professions, an independent graduate school affiliated with the MGH. Dr. Weinstein is Chair of the Massachusetts Medical Society's Committee on Publications, and is a past chair of the Association of American Medical Colleges' Group on Resident Affairs. She has led or served on several national task forces related to graduate medical education. Dr. Weinstein was a 2006-7 Fellow of the American Council on Education and is a recipient of the ACGME's "Parker Palmer Courage to Lead Award".

### **Eric E. Whitaker, MD, MPH**

Dr. Eric E. Whitaker is the Executive Vice President, Strategic Affiliations and Associate Dean of Community-based Research at the University of Chicago Medical Center (UCMC). He is responsible for

leading the UCMC's Urban Health Initiative, linking the Medical Center's mission of patient care, teaching and research for the purpose of improving the health of South Side residents.

Until October, 2007, he served as Director of the Illinois Department of Public Health (IDPH). In this capacity, Dr. Whitaker oversaw an agency with a budget of \$450 million with over 1,200 employees statewide, as well as 3 laboratories and seven regional offices.

Prior to his appointment at the State, Dr. Whitaker was an attending physician in Internal Medicine at Cook County Hospital in Chicago and a member of its Collaborative Research Unit. His research interests included HIV/AIDS prevention and minority health, particularly for black males. He helped found *Project Brotherhood: A Black Men's Clinic*, a weekly clinic for African American men housed in Woodlawn Adult Health Center, which is affiliated with the Cook County Bureau of Health Services. African American men die prematurely from preventable diseases and this innovative clinic provides free haircuts to entice men to visit. Visitors to the clinic receive a holistic approach to health and wellness that addresses their physical as well as mental, vocational and spiritual needs. In 2000, the project received the highest award accorded by the National Association of Public Hospital and Health Systems.

In 1991, Dr. Whitaker represented the 30,000 members of the American Medical Student Association (AMSA) as its national president while testifying twice before the U.S. Congress regarding national health insurance and minority health issues. In November 2003, he was named as one of **Crain's Chicago Business'** Forty under Forty Chicago's rising stars in business and government.

Dr. Whitaker received his undergraduate degree in Chemistry from Grinnell College in 1987, and in 1993 a master's degree in public health from the Harvard School of Public Health and a medical degree from the University of Chicago Pritzker School of Medicine. He also has completed coursework at the Northwestern Kellogg Graduate School of Management. In addition he is trained in primary care internal medicine and preventive medicine. Dr. Whitaker serves on numerous boards including Chicago Public Radio, Chicago Symphony Orchestra, Chicago Council on Global Affairs, Grinnell College and the Economic Club of Chicago.

### **Elizabeth Wiley, JD, MPH**

Elizabeth Wiley is national president of the American Medical Student Association (AMSA) and is completing her fourth year of medical school at George Washington University School of Medicine in Washington, DC. A native of Nashville, she received a B.A. in philosophy and women's studies from Smith College. After completing her undergraduate degree, Ms. Wiley spent two years teaching middle school in Detroit as a Teach for America corps member. She then earned both a J.D. and M.P.H. in health policy from the University of Michigan. Prior to beginning medical school, Ms. Wiley spent a year in Norway conducting health policy research with the generous support of a Fulbright grant. She currently serves on the American Medical Student Association's Board of Trustees, the American Medical Student Association Foundation's Board of Directors, and the National Resident Matching Program's Board of Directors. Committed to primary care, Liz aspires to a career as a physician advocate and hopes to practice medicine in one of our nation's community health centers.
